IEP Advisor

Brand System · Option 01: Refined Trust

LOGO & LOCKUP

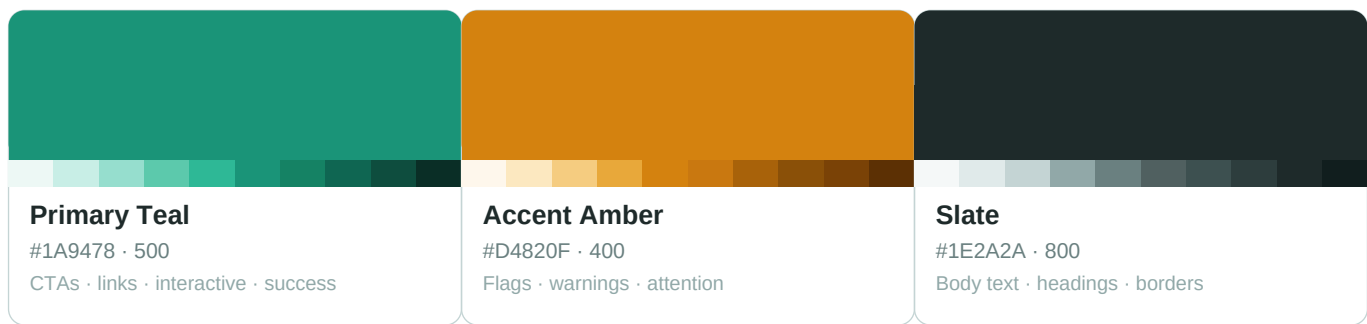

The IEP Advisor logo pairs a teal icon mark with a Lora serif wordmark. "IEP" is set in regular weight; "Advisor" is set in semibold with the teal accent. Always maintain the full lockup — do not separate the icon from the wordmark.

Clear space: Maintain minimum padding equal to the height of the "A" in Advisor on all sides. **Minimum size:** 120px wide for digital, 1 inch for print. **Don't:** Recolor the wordmark, stretch the icon, or use on busy backgrounds.

COLOR SYSTEM

Three ramps anchor the entire system. Teal is the primary brand color — use it for interactive elements, CTAs, and success states. Amber is the attention color — reserve it for flags, warnings, and highlights. Slate handles all structure, text, and neutral surfaces.

Usage Ratio

	Color	Hex	Usage	Role
	Slate 800	#1E2A2A	55%	Structure, text, borders
	Teal 500	#1A9478	28%	Interactive, brand, CTAs
	Amber 400	#D4820F	12%	Alerts, flags, highlights
	Red	#B91C1C	5%	Errors only

Semantic Color Tokens

For status and feedback states, use these semantic mappings consistently across the product:

Token	Background	Text	Border	Use
Success	#EDF8F5	#0F6652	#C8EEE6	Goal met, IDEA compliant
Warning	#FEF7EC	#A8620A	#FCE8C0	Review needed, SMART gap
Error	#FEF2F2	#B91C1C	#FECACA	Missing data, non-compliant
Info	#EDF8F5	#0F6652	#C8EEE6	Tips, explanations, context

TYPOGRAPHY

IEP Advisor uses a serif/sans pairing that balances authority with approachability. Lora (serif) carries the voice — it's warm, knowledgeable, and readable. DM Sans (sans-serif) handles everything functional — UI labels, body copy, captions.

Type Scale

Role	Sample	Spec
H1 — Page Title	Your Child's IEP	Lora · 32px · 600
H2 — Section	Goal Analysis	Lora · 22px · 600
H3 — Subsection	Reading Goals	Lora · 17px · 600
Lead — Intro copy	A plain-English view of your child's plan.	DM Sans · 16px · 300
Body — Content	Every goal must include a measurable baseline.	DM Sans · 14px · 400
UI Label — Buttons	Analyze Document	DM Sans · 13px · 500
Caption — Meta	Last updated March 3, 2026	DM Sans · 11px · 400
Eyebrow — Category	IEP SECTION 4	DM Sans · 10px · 600 · UC

Line Height & Letter Spacing

Style	Line Height	Letter Spacing	Notes
Headings (H1–H3)	1.2×	–0.01 to –0.02em	Slightly tight for weight
Lead / Body	1.6×	0	Comfortable reading
UI Labels	1.3×	0	Compact, functional
Eyebrow / Caps	1.2×	+0.08–0.14em	Always uppercase + tracking
Captions	1.5×	0	Airy, low emphasis

UI COMPONENTS

All interactive components follow a consistent visual language: 0.5px borders, 8px radius for buttons and inputs, 12px radius for cards, and flat fills (no gradients or drop shadows). Colors are drawn from the semantic token system.

FORM INPUTS	NOTICES & ALERTS
Child's Name e.g. Alex Johnson School District (focused) Search districts...Focused state — ring + teal border	Goal looks strongIncludes baseline, target, and timeline. Review recommendedProgress criteria may be unclear.

IEP Goal Card — Content Component

The goal card is the primary content unit. It combines a Lora heading, the verbatim goal text in italic, a teal "plain-language" panel, and an amber flag panel when issues are detected.

GOAL · READING · PAGE 4

Oral Reading Fluency

Review Needed

"Alex will read grade-level text at 90 words per minute with 95% accuracy by May 2026."

What this means

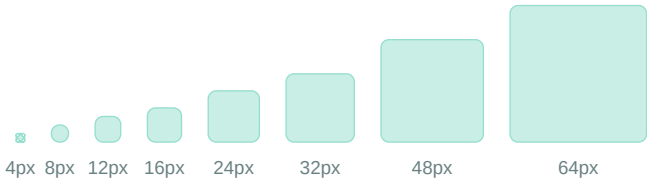

The school will measure how many words Alex reads correctly per minute. Target: 90 wpm. A specific, measurable benchmark tied to a grade-level standard.

Flag: Baseline missing

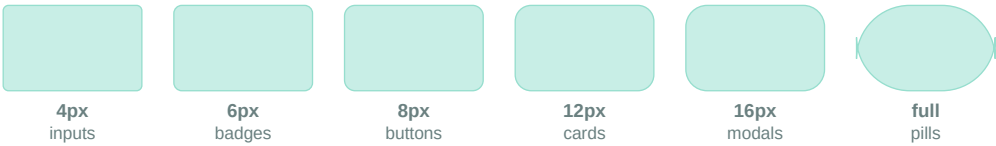

No current reading rate is stated. Ask: "What is Alex reading at now?" to understand how ambitious this goal really is.

SPACING & LAYOUT

All spacing uses a base-4 scale. Internal component padding uses px values; vertical layout rhythm uses rem equivalents. Stick to values on the scale — avoid arbitrary values like 7px or 13px.

Border Radius

Border Weight

Context	Weight	Color Token	Example
Default card border	0.5px	slate-200	All card components
Hover / emphasis	0.5px	slate-300	Hovered list items
Focus ring (inputs)	1px + 3px glow	teal-400 + teal-50	Focused form fields
Featured card accent	2px	teal-500 (left only)	Highlighted IEP items
Secondary button	1.5px	teal-300	Outlined action buttons

BRAND VOICE

IEP Advisor speaks to parents who are often anxious, confused, or feeling outmatched by the school system. Every word should make them feel more capable, not more overwhelmed.

We are	We are not
Empowering	Alarmist
Clear and plain-spoken	Clinical or jargon-heavy
Warm and human	Cold or distant
Specific and actionable	Vague or hand-wavy

Trustworthy and honest	Overconfident or legal
Parent-first	District-first

Writing Examples

Avoid	The IEP must include appropriate measurable annual goals including academic and functional goals.
Better	Every IEP needs yearly goals that can actually be measured — for both school skills and daily life skills.
Avoid	Pursuant to IDEA Part B, the LEA is required to conduct a reevaluation no more than once per year.
Better	By law, the school can only do a full re-evaluation once a year — but you can request one if you see changes.

ICON GUIDELINES

Use outline-weight icons (1.8px stroke) from **Lucide** or **Phosphor**. Teal for primary actions and informational icons. Amber for flags, warnings, and attention states. Slate for neutral, secondary, and structural icons. Avoid filled icons except for active/selected states.

Icon	Name	Color	Usage
[checkmark circle]	check-circle	Teal 500	Goal met, success state
[triangle alert]	alert-triangle	Amber 500	Flags, warnings, review needed
[file text]	file-text	Teal 500	IEP document, upload
[search]	search	Teal 500	Search, lookup
[users]	users	Slate 500	Team, district, people
[message square]	message-square	Teal 500	Comments, chat, communication
[star]	star	Amber 500	Highlight, important, bookmark
[info]	info	Teal 500	Help, explanation, context
[x circle]	x-circle	Red 700	Error, remove, delete
[clock]	clock	Slate 500	Timeline, due date, history
